Read the passage given below and answer the questions which are based on your understanding of the passage:

The diffusion of military capabilities is the consequence of global economic and social development. As they become richer economically, Japan, China and other Asian countries will become more powerful militarily, as Islamic societies eventually will also. So will Russia if it is successful in reforming its economy. The last decades of twentieth century have seen many non-western nations acquire sophisticated weapons through arms transfers from western societies, Russia, Israel and China, and also create indigenous production facilities for highly sophisticated weapons. These processes will continue and probably accelerate during the early years of the twenty-first century. Nonetheless, well into that century, the west, meaning primarily the United States with some supplements from Britain and France, will alone be able to intervene militarily in almost any part of the world, And only the United States will have the air power capable of bombing virtually any place in the world. These are central elements of the military position of the United States as a Global power and of the West as the dominant civilization in the world. For the immediate future the balance of conventional military power between the West and the rest will overwhelmingly favor the west.

The time, effort, and expense required to develop a first class conventional military capability provide tremendous incentives for non-western states to pursue other ways of countering western conventional military power. The perceived short-cut is the acquisition of weapons of mass destruction and the means to deliver them. The core states of civilizations and countries which are aspired to be regionally dominant powers have special incentives to acquire these weapons. Such weapons, first, enable those states to establish their dominance over other states in their civilization and region, and, second, provide them with the means to deter intervention in their civilization and region by the United States or other external powers.

- 71. Which one of the following is the main cause of expansion of military capabilities of the nation-states in the globalised world?
  - (A) Globalization and Globality.
  - (B) Socialization by the non-western countries.
  - (C) Militarization by the west.
  - (D) Privitization by the west.

- **72.** By which of the following means, non-western nation-states acquired sophisticated weapons?
  - (A) Arms sale
  - (B) Arms Aid
  - (C) Arms Transfer
  - (D) Arms Purchase
- 73. In twenty-first century, which of the following countries would very likely possess the capability of 'military intervention' in any part of the world?
  - (A) United States
  - (B) Britain and France
  - (C) China
  - (D) United States with the NATO support
- 74. Which one of the following would be the short-cut and pre-dominant inclination for the non-western states to counter the Western conventional military capability in the foreseeable future?
  - (A) By boosting their economics
  - (B) By boosting their military
  - (C) By boosting their technology
  - (D) By acquiring weapons of mass destruction
- 75. According to the above discourse, which of the following could be considered as the special incentives for the countries which aspire to be regionally dominant powers by acquiring the weapons of mass destruction and means of their delivery?
  - (A) Capability to establish their dominance.
  - (B) Availability of means to deter intervention by the United States or other powers.
  - (C) Capability to use the UN Legitimacy for selfish politicomilitary motives.
  - (D) The incentives mentioned in (A) and (B).

निम्नलिखित गद्यांश को पढ़िए और आपकी समज के आधार पर प्रश्नों के उत्तर दीजिए :

वैश्विक आर्थिक एवं सामाजिक विकास के परिणाम स्वरूप सैन्य क्षमताओं में विस्तरण हुआ है । ज्योंहि वे आर्थिक रूप से और अधिक अमीर होंगे, जापान, चीन और अन्य ऐशियाई देश सैन्य रूप से और अधिक शक्तिशाली होंगे । इसी प्रकार इस्लामी समाज भी । इसी तरह रूस भी यदि वह अपनी अर्थ व्यवस्था में सुधार लाने में सफल होता है । 20वीं शताब्दी के पिछले दशकों में यह देखा गया है कि कई गैर-पश्चिमी राष्ट्रों यथा रूस, इज़राइल, चीन ने शस्त्र-अन्तरण के अन्तर्गत परिष्कृत शस्त्र प्राप्त कर लिए हैं और उन्होंने अत्यन्त परिष्कृत शस्त्रों के उत्पादन की देशीय स्विधाओं का निर्माणकर लिया है । ये प्रक्रियाएँ जारी रहेंगी और शायद 21वीं शताब्दी के प्रारम्भ में इनमें वृद्धि हो जाए । फिर भी, उस शताब्दी में प्रवेश हो ही चुका है, यूरोप, जिसका प्रमुखतया अर्थ यू.एस.ए., जिसमें ब्रिटिश और फ्रांस के कुछ अनुपूरक सिम्मिलित हैं, संसार के किसी भाग में वह अकेला सैन्य हस्तक्षेप करने के सक्षम है । यू.एस.ए. की वैश्विक सैन्य अवस्था के केंद्रीय तत्त्व हैं जो उसे विश्व-शक्ति और पश्चिम को प्रभावी सभ्यता बनाती है । निकट भविष्य में, पश्चिम तथा अन्यों के बीच परम्परागत सैन्य सन्तुलन बहुत अधिक पश्चिम के पक्ष में रहेगा ।

प्रथम श्रेणी की परम्परागत सैन्य क्षमता के लिए समय, प्रयास और व्यय की आवश्यकता है, ये गैर-पश्चिमी देशों को अन्य साधनों की खोज के लिए बहुत अधिक प्रेरक हैं, जिससे परम्परागत सैन्य शिक्त का प्रितिरोध किया जा सकता हो । द्रष्टिगोचर लघुमार्ग है कि विध्वंसक शास्त्र और उनके वितरण के साधनों की प्राप्ति की जाए । इन सभ्यताओं के प्रमुख राज्य और देश जिन्होंने क्षेत्रीय स्तर पर प्रभावशाली शिक्तयाँ बनना चाहा था, उन्हें ऐसे शास्त्र प्राप्त करने के लिए विशिष्ट प्रोत्साहन हैं । ऐसे शास्त्र उन देशों पर अपना प्रभाव स्थापित करते हैं और उन्हें वे साधन उपलब्ध हो जाते हैं जिनसे वे अपनी सभ्यता और क्षेत्र में यू.एस.ए. अथवा किसी अन्य बाहरी शिक्त के हस्तक्षेप को रोक सके ।
